An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. John Grover on September 27, 2007.

The application has been amended as follows:

In the claims:

In claim 4, line 15, the words – substantially translucent—has been added before the word textured.

In claim 19, line 6, the words – substantially translucent—has been added before the word textured.

Claims 22-27 have been canceled, as they were drawn to inventions that were non-elected without traverse.

Claims 4 and 19 have been amended as a result of the conversation between the examiner and Mr. Grover. The examiner indicated that he would maintain the rejection, but that there was a distinction between the art (Fuse) and the current invention in that the light passed through the textured surface, where Fuse had an opening to allow light to pass. Mr. Grover proposed amending the claims to recite that the textured surface was translucent, which defines over Fuse in that if the outer surface of Fuse were

translucent, there would be no need for the opening to allow light to pass. There examiner agreed and the claims have accordingly been amended.

The following is an examiner's statement of reasons for allowance: The claims are allowable, in that, as discussed above, Fuse does not have a translucent textured surface on the lenses. No other art taught or suggested this feature in a measuring device as claimed. As such, the claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert L. Nasser whose telephone number is 571 272-4731. The examiner can normally be reached on m-f 9-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles Marmor II can be reached on 571 272-4730. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
